Eileen_Spezio@URMC.Rochester.edu

The Regional Training Center Monthly Webinar Series is a new, collaborative training initiative designed to plumb the depths of all-hazards preparedness and response. Each month, guest lecturers will lend subject-matter expertise to particular topics that materially impact Healthcare Emergency Preparedness Coalitions. As a compliment to traditional, "pre-approved" training, these 60-90-minute engagements will provide focused insight on best-practices, regulatory updates, training, incident management, and personal accounts of real-world responses. Derived from Hospital Preparedness Program capabilities, this virtual series will take a comprehensive approach to preparing for, responding to, and recovering from a wide variety of high-stakes, healthcare challenges.

- Topics are in review for addition to the NYSDOH HPP Pre-Approved List.
- Registration info for 1st quarter webinars are (or will be soon) listed in NYSDOH LMS. Registration deadlines are FIRM.
- Confirmations and Zoom/Webex links will be sent to the email address linked to your NYSDOH LMS Profile. Please double check your LMS profile prior to submitting registration for email accuracy.
- Webinar topics and registration details for October through June will follow in the near future.
