ChartMaxx is officially changing to

Quanum!

Currently, we are using ChartMaxx version 6.3 and we will soon be upgrading to Quanum version 8.0. This new and exciting change will go into effect on the evening of November 2nd.

While the name is different, the work flow is the same.

Simply put, the new Quanum 8.0 software is an updated version of ChartMaxx.

Stay tuned for System Bulletins and Tip Sheets describing all the details regarding the exciting changes happening with your favorite Data Repository.
