

Inpatient Providers & Nurses

Flag Data for Chart Correction:

Not Currently Integrated

Overview of Feature/Changes

With the 2019 Spring Upgrade, a **Chart Correction** icon has appeared on the Flowsheets, MAR, and the Notes activity. This feature allows staff to flag misfiled patient encounters and data within the chart. As of **4/8/2019**, **this feature has not been fully integrated within our Epic system**. Until further notice, **do not use this feature** and please follow the current protocols for misfiled documentation and/or data.

Chart Correction Icons

The following icons are not to be utilized until further notice. Any documentation completed using these flags, will not be accurately processed.
