

### EPIC SYSTEM UPDATE

### Overview of Feature / Changes

**Effective Thursday December 5, 2019**, a new CoPath lab interface will be implemented for all **andrology specimens**. The old semen analysis code (LAB216) will be inactivated and the **new andrology EPIC order (LABAP2751)** will be available. All andrology tests can be ordered using the **LABAP2751** test code. This test has numerous key word searches and can be found by searching any of the andrology orders. The following tests can be ordered with the Andrology (LABAP2751) test order: Semen for Analysis, Post Vasectomy; Semen for Analysis, Comprehensive or Basic; Semen for Analysis, Retrograde; Sperm, Antibody Test; Sperm Preparation; Sperm, DNA Damage Assessment; Semen for Cryopreservation; Testicular Tissue Cryopreservation.

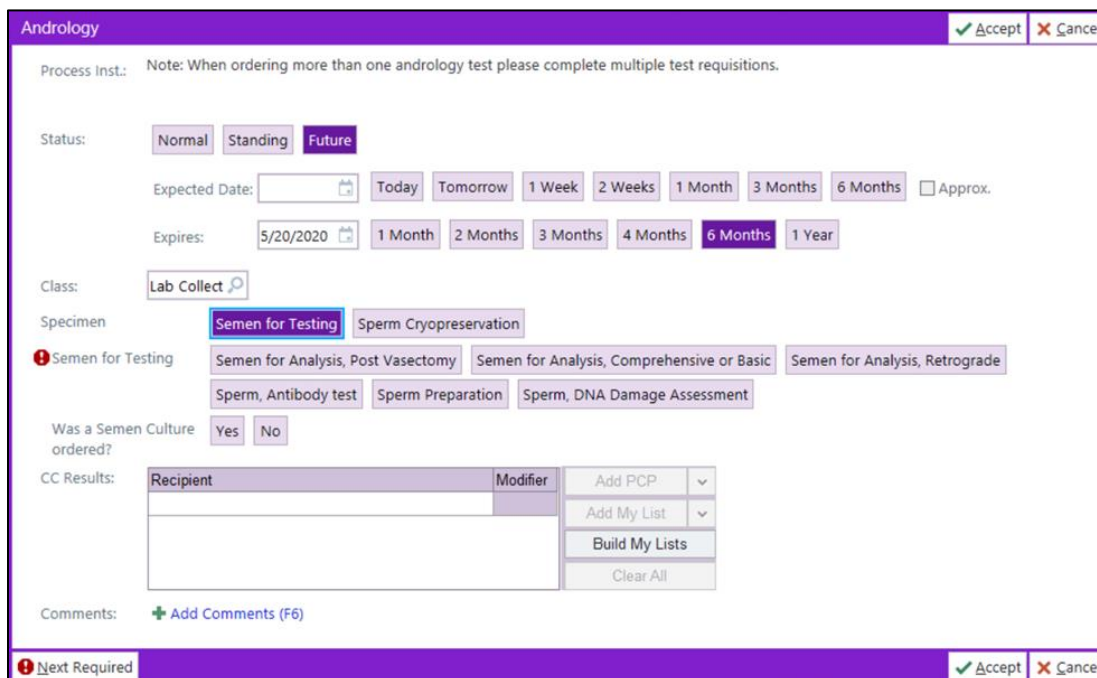

#### Order with Electronic Requisition Forms

Andrology (LABAP2751)

**Note:** Please print the requisition and give it to the patient to take to laboratory when they present for specimen collection.

#### General Information

Providers will search for orders following typical workflow. In the Order Composer, information will be documented using fields, buttons, and drop-down menus. As information is entered, **additional rows may cascade** so that the ordering provider can enter more information. Upon completion, **sign the order and a paper requisition will print**. **Please provide the paper requisition to the patient so they can provide it to the laboratory when they present for specimen collection.**

The screenshot shows the 'Andrology' order form. At the top right are 'Accept' and 'Cancel' buttons. The 'Process Inst.' field contains a note: 'Note: When ordering more than one andrology test please complete multiple test requisitions.' The 'Status' field has buttons for 'Normal', 'Standing', and 'Future'. The 'Expected Date' field has a calendar icon and buttons for 'Today', 'Tomorrow', '1 Week', '2 Weeks', '1 Month', '3 Months', '6 Months', and an 'Approx.' checkbox. The 'Expires' field has a calendar icon and buttons for '1 Month', '2 Months', '3 Months', '4 Months', '6 Months', and '1 Year'. The 'Class' field has a search icon and 'Lab Collect' is selected. The 'Specimen' field has 'Semen for Testing' and 'Sperm Cryopreservation' buttons. Below this is a section for 'Semen for Testing' with buttons for 'Semen for Analysis, Post Vasectomy', 'Semen for Analysis, Comprehensive or Basic', 'Semen for Analysis, Retrograde', 'Sperm, Antibody test', 'Sperm Preparation', and 'Sperm, DNA Damage Assessment'. The 'Was a Semen Culture ordered?' field has 'Yes' and 'No' buttons. The 'CC Results' field has a table with columns 'Recipient' and 'Modifier', and buttons for 'Add PCP', 'Add My List', 'Build My Lists', and 'Clear All'. The 'Comments' field has an 'Add Comments (F6)' button. At the bottom left is a 'Next Required' button with a red exclamation mark icon. At the bottom right are 'Accept' and 'Cancel' buttons.
