## Age-Based Orders

## EPIC SYSTEM UPDATE

### Overview of Feature / Changes

**Effective December 1, 2022**, the new **Hepatitis Panel, Acute [O379909]- Inpatient** or **[O2106660268]- Outpatient** order panels have been created to streamline the ordering process and will be replacing the **LAB551 Hepatitis Panel, Acute**. The order panels will provide the correct Hepatitis orders based on the age of the patient.

#### Hepatitis Orders Based on Age:

- Hepatitis C RNA Quantitative, PCR

**Note:** *Within the order panel*, the Hepatitis C RNA order can only be placed for **children under the age of 18 months**, but can be ordered for **any age as an individual order**.

- Hepatitis C Antibody (Age  $\geq$  18 MO)
- Hepatitis B Surface Antigen (Child  $<$  2 YR) (Send Out)
- Hepatitis B Surface Antigen (Age  $\geq$  2 YR)
- Hepatitis B Core Antibody, IgM (Age  $<$  21 YR) (Send Out)
- Hepatitis B Core Antibody, IgM (Age  $\geq$  21 YR)

**Note:** The Hepatitis C Antibody, Hepatitis B Surf Antigen, Hepatitis B Core Antibody labs **will also be restricted by age as individual orders outside of the panel**.
