

Sirolimus Testing Change

APPLIES TO BOTH CAMPUSES

- Starting **July 9th, 2026**, testing for **Sirolimus (LAB875)** will be performed as a send-out lab by LabCorp using order **Sirolimus (LAB123150)**
- This change was necessitated by sunseting of the testing platform previously used for this testing at Upstate
- Due to batching of prior testing, the send-out testing will provide a faster turn-around on results

Sirolimus

Current

The screenshot shows the 'Chart Review' tab with the 'Labs' sub-tab selected. A filter is set to 'Since 7/9/2026'. Under 'LABORATORY RESULTS', 'BLOOD' is checked. The 'OTHER DRUGS' section shows 'Sirolimus' with a value of '51.9'.

Sirolimus Level

Order: 291751243

Collected 7/9/2026 08:34 Status: Final result Dx: Heart-lung transplant infection (CMS/...
Test Result Released: Yes (not seen)

Component 7/9/26 0834

Ref Range & Units

Sirolimus 51.9

Therapeutic: 6.5 - 15.0 ng/mL

Comment: The stated therapeutic range is based on a trough specimen, with the patient in the maintenance phase, and in combination with cyclosporine for a kidney transplant.

New

The screenshot shows the 'Chart Review' tab with the 'Labs' sub-tab selected. A filter is set to 'Since 7/9/2026'. Under 'LABORATORY RESULTS', 'BLOOD', 'INFECTIOUS DISEASE', and 'URINE' are checked. The 'OTHER DRUGS' section shows 'Sirolimus, Whole Blood' with a value of '51.9'.

Sirolimus, Whole Blood (Send Out)

Order: 380276506

Collected 7/9/2026 08:23 Status: Final result Dx: Essential hypertension, benign
