

AOA Visiting Professorship Presentation

Lily Peng, MD, PhD

Deputy Editor, New England Journal of Medicine AI

Past Director, Product Management, Health AI, Google Research

Dr. Lily Peng, MD, PhD is a physician scientist, expert on AI in healthcare, and deputy editor for New England Journal of Medicine AI. For the past 7 years she led Google Health AI and Alphabet Inc subsidiary, Verily, as the Director of Product Management with applications on diabetic eye disease, cardiovascular disease, and cancer. Her [paper on deep learning algorithms for diagnosing diabetic retinopathy](#) was named as one of JAMA's papers of the decade. Prior to that, she co-founded Nano Precision Medical, a drug delivery device start-up (now merged with NYSE: VANI) and was also a product manager at Doximity.

She has been named in [Fortune magazine's 40 under 40 in health care](#), and [Wired magazine's list of 20 People Who Are Creating the Future](#).
