Message from Andrea

Happy spooky season! Speaking of which, we're freeing up Halloween evening by moving up Gargi's Grand Rounds presentation to 10/24 (see update calendar in newsletter). The intention is to meet in person as much as possible, and this will add another in-person opportunity to break up the streak of Zoom presentations. Also, MDPHD parents can be available to dress up their little goblins and attend to them during the inevitable sugar high.

I hope those who attended Standardized Patient training last month had a positive experience shaking off the patient interaction cobwebs. We are now in the Simulation Center and would appreciate any feedback you might have as we plan for the spring semester. Continue the good work with the Grand Rounds feedback form! I would not like to go back to tracking names for submissions, so keep up the participation please!

Upcoming Events

Discussion on artificial intelligence and machine learning is Oct. 28

Upstate MD/PhD students Shervin Razavi and Rafael Scherman will present a case-based discussion of artificial intelligence and machine learning applications in healthcare Oct. 28 from 4 to 5 p.m. via Zoom. To join virtually, click [here](#)!

Questions? Email Kelly Donovan at DonovaKe@Upstate.edu.

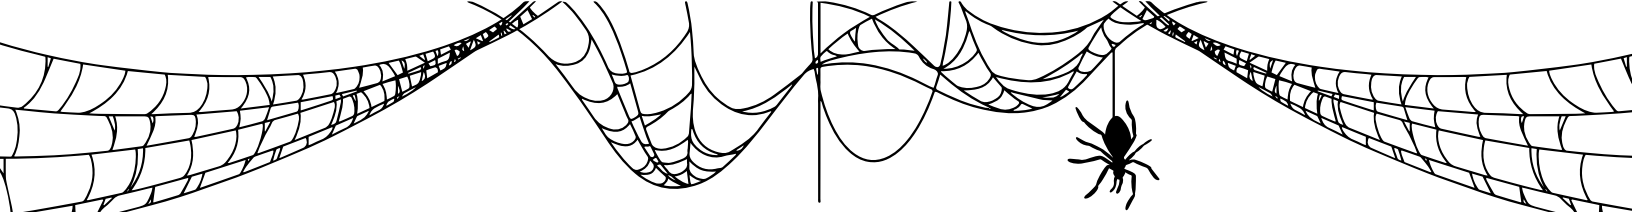

MDPhD Recruitment/Interview Days

October 15

October 23

November 12

Registration Deadline Approaching! Friday: 10/4

[Link to Registration Form](#)

Please notify Andrea when you've registered.

We HIGHLY encourage everyone to attend.

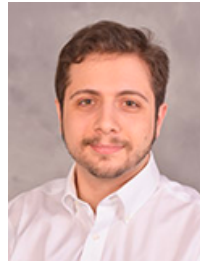

Fall Social Event

TBD

Publications

Signal detection theoretic estimates of the murine absolute visual threshold are independent of decision bias

Please continue to update the program (notify Andrea) on recent publications and update your own personal publication pages, too.
