### Research Project

I am seeking one student volunteer to be a co-author on my publication examining the relationship between life adversity and suicide. I need a full draft returned to me by Mon Feb 16, so I have enough time to provide feedback before submitting it to the funder (CDC). Specific responsibilities include: (1) Complete the intro, discussion, and conclusions sections following my provided outline (<https://bit.ly/4rcxgE6>), (2) Support editing of the results section if more analyses are conducted, (3) Learn Zotero (free reference manager software), and (4) Support paper editing during the peer review process. If you can no longer access the paper via the link, that means this position is filled. To apply, please send me a resume/CV, writing sample (ideally scientific writing

that you did majority of writing), and a very brief statement of interest (instead of a cover letter) in the body of your email ([WongRo@upstate.edu](mailto:WongRo@upstate.edu)).
