Research Project

This project will generate a research paper and involve literature search and synthesis, data and statistical analysis (e.g. survival curves, correlation analysis, t-tests, chi-square, etc), table/figure preparation, and manuscript preparation/writing on the factors impacting Department Chair service lengths. Potential first-author opportunity for someone able to independently accomplish the substantial majority of manuscript preparation and writing.

Research Location: Flexible.

Tele-research/remote opportunity? Yes

Will it require student to be physically present in the research location: No

Type of research: Educational

Summer project? Yes

Long-term project: No

Availability required to work on your project(s):

Flexible schedule and location, but requires at least 5-10 hours/week, and ability to work as needed to have the paper "publication ready" within 1-3 months. Summer 2026 and/or academic year 2026/2027.

Prior experience or specific skills required to work on your project(s):

Demonstrated experience with data analysis, statistics, and figure production is required. Experience with all phases of producing peer-reviewed scientific/academic manuscripts is ideal, but may consider strong candidates without a prior academic publication record. Ability to work independently (with appropriate general direction/oversight) is required. CV and cover letter detailing relevant experience required.
