
Moral Distress in Medical Trainees

Research Participants Needed

We're currently looking for medical students to help us better understand experiences with moral distress and ethically challenging situations during medical education.

What to expect

- One individual interview
- Approximately 30-45 minutes
- No audio or video recording
- Typed notes only

Who can participate

- Current Upstate medical student
- 18 years of age or older
- Able to interview in English

Voluntary

- Skip any question
- Stop any time
- No effect on academic standing
