

EPIC SYSTEM UPDATE

Overview of Feature / Changes

Effective 04/22/2025: IV fluid orders are updated to reflect a national stabilization in the IV fluid supply.

Updated Content

- Default duration on fluids will change from 1 day to 3 days.
- Maximum duration on fluids will change from 2 days to 5 days.
- If maximum duration is exceeded when signing the order, an order validation warning will appear to prompt the user to modify the duration. *See Figure 1.*
- Any IV fluid orders that are ordered through a Beacon/Oncology treatment plan will continue to **NOT** be affected by duration limits.
