

Project TEACH: Helping You Care for Your Perinatal Patients with Mood and Anxiety Disorders

**Wednesday, January 11, 2023
12:00 to 1:00 pm EST**

During this webinar, NYS maternal health clinicians will learn how to utilize Project TEACH for cases in which perinatal mental health issues are present.

Clinicians will learn to access:

- Real-time phone consultation with a perinatal psychiatrist;
- No-cost CME in perinatal mental health screening/diagnosis and treatment; and
- Linkages/referrals for their perinatal patients.

Featured Presenter: Kristina M. Deligiannidis, M.D.

Director, Women's Behavioral Health, Zucker Hillside Hospital, Northwell Health
Medical Director, Reproductive Psychiatry, New York State Project TEACH
Professor, Departments of Psychiatry, Obstetrics & Gynecology, and Molecular Medicine at the Donald and Barbara Zucker School of Medicine at Hofstra/Northwell
Professor, Feinstein Institutes for Medical Research, Northwell Health

Continuing Education (CE) credits will be offered for event participants after the completion of an evaluation and post-test.
