

# PROJECT ECHO

*Moving Knowledge Not People*

## What is ECHO?

(Extension for Community Healthcare Outcomes)

A free tele-education program linking primary care providers to specialists to improve care for patients with their own physicians through the spread of knowledge.

**\*Free CME offered with participation**

**\*Instant recommendations on cases presented**

## Who can attend?

- MDs, DOs, and PAs
- NPs and RNs, Residents and Students
- Primary Care and Emergency Providers
- Pre-hospital Providers - - EMT, EMT-P
- RPh and PharmD
- Public Health Officials
