

Toxicology Case Conference  
Thursday, March 23, 2022  
Location: 5th Floor Conference Room/Zoom  
Time: 1:30-3:00 PM

Dr. Bourgeois & Dr. Eggleston

### **Toxicology Case Conference Cases for Discussion**

#### Case 1

A 13-year-old female found in her bed this morning 3 hours ago with altered mental status, lethargic with reports of vomiting and twitching per EMS. Parents think she may have had a seizure, but she hasn't had a seizure since she was a toddler.

VS: 104/71; HR 88; RR 19; 96% on RA

#### Case 2

A 27-year-old female presents via EMS at ~0100 after family called 911 after patient texted her significant other a concerning message that she planned to harm herself.

VS 125/88; HR 89, RR 22, 98% on RA, Temp 98.2

Medication list: acetaminophen, albuterol, colace, haldol, fish oil, ibuprofen, lithium, haldol, midodrine, mometasone, naltrexone, multivitamin, protonix, Prozac, and valium

Case 3- Will be substituted by a short Kahoot game with the theme of Antidotes

Journal Club Immediately Following  
Articles attached in email
