

New York City Poison Center Consultants' Conference

August 2024

Consultants' Conference is a monthly meeting attended by medical toxicologists, emergency physicians, pharmacists and other learners from all over the Northeast. It is an educational activity in which the *Consultants* (renowned experts in various medical specialties) provide insight into the analysis and approach to the diagnosis and treatment of interesting toxicologic cases. The cases are presented mostly by the NYU Toxicology fellows in training, but anyone can present their case if deemed appropriate. Learners of all levels can benefit from the rich and often dynamic discourse.

The next NYC Poison Center Grand Rounds and Consultants' Conference will be held on August 1, 2024. Grand Rounds will start at 1PM EST and Consultants' Conference will follow immediately. The topic and speaker will be:

Glyphosate Toxicity: The \$10 Billion Question

Philip DiSalvo, MD
Clinical Assistant Professor
Department of Clinical Sciences
Carle Illinois College of Medicine

Consultants' Conference will take place from 2 PM - 4 PM EST.

The live conference will be held in the Public Health Laboratory, and we will also broadcast via WebEx. Please click [here](#) to register and download the WebEx outlook file.

Please Note: If you would like to receive this monthly announcement on a regular basis, please register for the conference at the link above, even if you are unable to attend.

**Please post and distribute.
All are welcome.**

Cases to be discussed for Consultants' Conference include:

1. A 3-year-old girl is administered a medication by her aunt in anticipation of a prolonged car ride. Shortly after receiving the medication, the child has a few episodes of emesis. Five hours later when the mother returns home, she notices that the child "doesn't look right" and brings the child to the ED. Her vital signs on arrival are: BP, 85/39 mmHg; HR, 151 beats/minute; RR, 28 breaths/minute; T, 97.9 degrees Fahrenheit.
2. A 46-year-old woman with a past medical history of schizoaffective disorder, type 2 diabetes mellitus, and iron-deficiency anemia is hospitalized and started on a new medication. Two weeks later, she develops fever, tachycardia and hypotension. Her vital signs at this time are noted to be: BP, 73/53 mm Hg; HR, 131 beats/minute; RR, 33 breaths/minute; T, 96.6 degrees Fahrenheit; O₂ Sat, 88% (Room Air). Her ECG shows sinus tachycardia, rate 132 beats/minute; QRS duration, 90 msec; QT duration, 272 msec.
3. A 59-year-old woman presents to the ED after a suspected insect bite to her posterior right shoulder that occurred five days ago while travelling in Texas. After the "bite" occurred, she reports pain and a wound that is increasing in size at the site of the "bite" accompanied by nausea, malaise, and fevers. Her vital signs on arrival are: BP, 103/57 mmHg; HR, 119 beats/minute; RR, 18 breaths/minute; T, 99.7 degrees Fahrenheit.

Mark K. Su, MD, MPH
Director, New York City Poison Center

Jointly Provided by the NYU Grossman School of Medicine and the Poison Control Center.

Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the NYU School of Medicine and the Poison Control Center. The NYU Grossman School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement

The NYU Grossman School of Medicine designates both of these as live activities for a maximum of 0.75 *AMA PRA Category 1 CreditsTM* for Toxicology Grand Rounds and 2 *AMA PRA Category 1 CreditsTM* for Consultants' Conference. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Statement

The NYU Grossman School of Medicine adheres to ACCME accreditation requirements and policies, including the Standards for Commercial Support regarding industry support of continuing medical education. In order to resolve any identified Conflicts of Interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships as well as the discussion of unlabeled or unapproved use of any drug, device or procedure by the faculty will be fully noted at the meeting.
