

New York City Poison Center Consultants' Conference

NOVEMBER 2024

Consultants' Conference is a monthly meeting attended by medical toxicologists, emergency physicians, pharmacists and other learners from all over the Northeast. It is an educational activity in which the *Consultants* (renowned experts in various medical specialties) provide insight into the analysis and approach to the diagnosis and treatment of interesting toxicologic cases. The cases are presented mostly by the NYU Toxicology fellows in training, but anyone can present their case if deemed appropriate. Learners of all levels can benefit from the rich and often dynamic discourse.

The next NYC Poison Center Grand Rounds and Consultants' Conference will be held on November 7, 2024. Grand Rounds will start at 1PM EST and Consultants' Conference will follow immediately. The topic and speaker will be:

**Gaps in the current treatment of pediatric lead poisoning:
What are they and how do we fill them?**

**Robert S. Hoffman, MD, FAACT, FACMT, FRCP Edin, FEAPCCT
Professor of Emergency Medicine and Medicine
Ronald O. Perelman Department of Emergency Medicine
NYU Grossman School of Medicine**

Consultants' Conference will take place from 2 PM - 4 PM EST.

The live conference will be held on the NYU Campus in Medical Science Building; Schwartz Ground Floor; SLH E room; we will also broadcast via WebEx. Please click [here](#) to register and download the WebEx outlook file.

Please Note: If you would like to receive this monthly announcement on a regular basis, please register for the conference at the link above, even if you are unable to attend.

**Please post and distribute.
All are welcome.**

Cases to be discussed for Consultants' Conference include:

1. A 15-year-old girl with no significant past medical history presents to the ED for abdominal pain, nausea, vomiting, chest pain, palpitations and headaches for one day after ingesting a weight loss supplement purchased online. She has been taking the supplement for three days and the last time she took it was more than 12 hours ago. Her initial vital signs are: BP, 167/80 mm Hg; HR, 106 beats/minute; RR, 16 breaths/minute; T, 98,8 degrees Fahrenheit; O₂ Sat, 100% (room air).
2. A 51-year-old man with a history of alcohol use disorder presents to the ED with agitation after being found down by his mother at home. She believes that he fell and hit his head. In the ED, he is agitated and given pharmacologic sedation. After six hours of observation, he does not wake up and toxicology is consulted for assistance. His vital signs at the time of consultation are:
3. A 30-year-old male with a past medical history of muscular dystrophy and constipation presents to the ED after being found unresponsive and cyanotic. He received intranasal naloxone en route to the hospital with improvement of his respiratory and mental status. His initial vital signs in the ED are: BP, 125/83 mm Hg; HR, 124; RR, 26 breaths/minute; T, 102 degrees Fahrenheit (rectal); O₂ Sat, 100% (room air).

Mark K. Su, MD, MPH
Director, New York City Poison Center

Jointly Provided by the NYU Grossman School of Medicine and the Poison Control Center.

Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the NYU School of Medicine and the Poison Control Center. The NYU Grossman School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement

The NYU Grossman School of Medicine designates both of these as live activities for a maximum of 0.75 *AMA PRA Category 1 CreditsTM* for Toxicology Grand Rounds and 2 *AMA PRA Category 1 CreditsTM* for Consultants' Conference. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Statement

The NYU Grossman School of Medicine adheres to ACCME accreditation requirements and policies, including the Standards for Commercial Support regarding industry support of continuing medical education. In order to resolve any identified Conflicts of Interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships as well as the discussion of unlabeled or unapproved use of any drug, device or procedure by the faculty will be fully noted at the meeting.
